THE question raised at the meeting of the Hongkong Chamber of Commerce on the 14th inst. with regard to the light dies is one of considerable interest. It is undeniably of great importance that in Hongkong, which owes most of its prosperity to the fact that it is a free port, any charge upon the shipping frequenting its waters should be sensibly concludes that there is no danger. most jealously regarded. It is unquestionably, as Mr. Jounson said when proposing the adoption of the report, "expedient to do all in this colony. Acting on the communications " we can to invite ships to come here, and " not tax them to keep them away." With tradesman in Queen's Road Central, where this view the light dues should be strictly limited to the amount required for maintain- charged at the Police Court with possession of ing the lights efficiently. At present there | this prepared opium while not being the holder of is a material surplus of income over expenditure, and we think the community are justified in asking that the surplus shall be worth its weight in silver. A considerable devoted to the establishment of a light on Gap Rock, if the matter can be arranged we understand, is equal in value to its weight in with the Chinese Government, and that the dues shall in future be reduced to such a point as will simply cover the yearly outlay incurred. But we cannot agree with the Hon. Chairman of the Chamber that the whose time on the station have expired. light dues should be abolished altogether. The lights are maintained for the benefit of shipowners, and the tax is a very small one. Reductions might fairly be made in the case of the river and coasting vessels which are constantly entering and clearing, but the cost of lighting the approaches to the port should naturally fall on those most concerned. Nor do we believe there is any chance of the Secretary of State agreeing to George Grant, clerk, for the Audacious. The such a proposition as the abolition of Thalia will leave here on the let or 2nd proximo these dues, for it will be remembered with the old crew of the Curaçoa and other timethat Lord KIMBERLEY negatived the proposition of Governor HENNESSY to abolish was not prepared, having regard to the number of public works pending, to surquestion from that of abolition pure and entertained. The suggestion made by Mr. SHARP that another effort should be made to induce the Chinese Government to cooperate in establishing a light on Gap Rock is well worth consideration. The Chinese Authofoot-hold to be acquired, even on so much as agree to undertake the work themselves on condition of this Colony sharing the expense. and the Hongkong Government might below forward that undertaking by urging the authorities in Downing Street to open communications on the subject with the maritime states whose interests are most concerned,

Her Majesty's ship Wye is now at Woolwich, loading for Bombay, and a considerable portion of her cargo will consist of these reserve guns, with their carriages, and equipment of ammunition, projectiles, and fittings, while another large freight has been embarked at the docks in the steamer Lord of the Isles (Shaw. Rushby and Co.) for Hongkong. The guns are designedly of uniform pattern and simple description, being the type known as the "Palliser corvetted 64-pounder unzzle-loading rifled gun," having been originally the old-fashioned cast-iron smooth bore 32 pounder, strengthened by boring out and inserting a tough wrought-iron tube, on the system introduced by Colonel Palliser. . The Admiralty surveyors have inspected and taken measurements of many large steamers of various sixes, and the alterations which will, in each case, be requisite for the mounting of guns and construction of magazines are already planned. In case of war, all suitable vessels which may be at hand can be requisitioned by the reprosentatives of the Government, the guns, &c., put on board, and the officers and sailors transformed

The Bangkok correspondent of the Daily. RUSSIA AND CHINA.

The Rastern Review, which has lately produced one or two rather disquisting Items from Central Asia, has just received another sensational piece of news from Kuldia, given on the faith of reports brought to Viermoe by Dangans. It discloses a conspiracy of Chinese offices to not against the exacting Russians, independently of their commander, who is considered to be too deferential towards the Russian intruders. The Dungans referred to reported that seven or eight lemnly pledged themselves onemies of the Russians scaling their oath with their blood. Itis difficulty to believe everything of this kind that one hears from this quarter of the East; but it helps to confirm the undeniable fact that the Russians experience immense difficulty in carry-

ing out their Kuldja compact with China. Further reports also continue to announce from the Russian border tribes, great excitoment apprehensions among the Russians generally. There are sinister rumours of Chinese reinforcements, raising the total of the troops in Chinese Kuldja to 50,000 men during this mouth, and of the arrival of vast stores of flour and ammuni-All food for troops will have to be brought, as the inhabitants have migrated, and taken everything with them. The Russian authorities appear to be vainly protesting against the actual state of things, but the employment of force has been forbidden. In December last there were still 2,900 families of Dungans left on Chinese territory, who were preparing to go over to the Russian side. The Novoe Vremya says that a special commission, under Colonel Prejectlsky, will, in April next, undertake the improvement of the demarcation lines on the northern part of the Russo-Chinese frontier, in conjunction with several Chinese officers.

The Chinese Government has announced that all Buddhists who settle in the Ili Valley for the purpose of carrying on agriculture, trade, or commerce, will be exempt from taxation. The Turkestan Gasette publishes intelligence from Kuldja, stating that some of the Chinese commanders and officers in that district had complained to Governor Tsian Tsin (?) that their position in matters affecting their official dries. They urged the Chinese Governor to take up a firmer attitude towards the Russians, and intimated that failing compliance with their demand they would address a collective complaint to the Peking Government. The Governor, however, declined to entertain their representations, in consequence of which the officers carried out their threat of appealing to Peking.

The following Letter has been received from the Secretary of the "CARLTON" CLUB.

CARLTON CLUB, Dec. 20, 1875.

Secretary.

Messrs. R. Mathews & Co. GENTLEMEN.—In reply to your inquiry as to whether the Whiskey you are supplying to this Club is approved by the Members, the best answer I can give is that the consumption of this Whiskey in the Club has GREATLY GREENLEES BROTHERS. INCREASED since it has been supplied by your firm. - There can be no doubt whatever about the Whiskey being MOST EXCEL: [543 LINT. It is Old and Soft, and I may safely say that it is much approved by the Members. Yours obediently. W. GRIFFIN SUTTON,
